## NFM Basketballers prepare for upcoming season

Members of the Team

Players showcase their new uniform

Did you know that the National Flour Mills Limited has a basketball team? Well for those who are not aware.....wonder no more! The team's existence spans about 20+ years. During their tenure in the 80's, the team developed renowned players who were adored by many of the basketball fanatics. From the Anthony "Pompie" Julien and Curtis "Candyman" Reid team of the 80's to the "Showtime" era of great players and Humming Bird Medal Awardees - Patrick "KK" Joseph and Derrick "Cornbread" James.

The team's consistency was always about winning and as they continue into the 21<sup>st</sup> century with a few new faces and an influx of young talented players such as Kerry "Piper" Westfield, Kerry Joseph, Jason De Lisle and David King, they seem not to falter.

At present, the team is headed by ex-player Jamal Duke, who is also an NFM employee in the Packaging and Stores Department. According to Jamal - "The team is expected to take part in the National Club Championship scheduled for November 2008 and the Super 10 Team Tournament (date to be announced). We are looking forward to the support of the NFM staff at the upcoming tournaments so that they can outshine other supporters."

The scheduled date and time of the upcoming games will be posted at a notice board near you.

*The Official GrapeVine extends best wishes and much success to the basketball team as they prepare for both tournaments!*
